

Access2Sea

New opportunities for more competitive
and sustainable blue growth in the
Atlantic Area

ERDF funding: 1.400.329,44€
Total Budget: 1.867.105,92€
03 / 2019 | 02 / 2022

www.access2sea.eu

Aquaculture can boost economic growth and employability in seafood by improving the exploitation and preservation of the Atlantic Area's natural resources and the creation of new sustainable farms, a key factor for the blue economy in the region. The purpose of Access2Sea is to improve the attractiveness of the Atlantic Area facilitated easier and more sustainable access to business opportunities

Project funded by the Interreg Atlantic Area Programme
through the European Regional Development Fund
